PERSONAL STATEMENT

Computer science student fascinated by solving problems and researching new ways to write simple, yet effective solutions. Currently aiming for an internship in back-end development to progress as a software developer.

SKILLS

- **Front-End:** *HTML5, CSS*
- **Back-End:** *Python, Java, Spring, Spring Boot*
- **Database:** *MySQL,* PostgreSQL
- **Others:** *Git, GitHub*

PROJECTS

Data Analysis - https://github.com/theocesar/Data_Analysis

- Exploratory data analysis of a product sales dataset using the pandas library in Python.

Relational Database - https://github.com/theocesar/Relational_Database

- MySQL database created to resemble a real world pharmaceutical company database.

Game List - https://github.com/theocesar/GameList

- Back-end application made in Java that presents a list with various games and their respective information.

EDUCATION

Pontifícia Universidade Católica do Paraná (PUCPR)   **Curitiba, PR**
Bachelor of Computer Science   2021 - Current

EXTRACURRICULAR COURSES

Curso em Video – Algorithms
